

**Frequently Asked Questions (FAQ)****Q. Can I use this product as a preventative measure against sap-feeding pests?**

- Yes, this product can be used as both a preventive and a curative measure for low pest infestations. Regular usage helps manage the presence of Sap Feeding Pests like Mealybugs, Aphids, Thrips, Whiteflies, and Mites.

**Q. In how many days will I be able to see the product take effect?**

- Once the product is used, results become visible in 1 or 2 days. As the product induces dehydration in pests, insect cadavers (dead bodies) appear like a dry, powdery layer on the leaves or stems.

**Q. How often should I use the formulation on my plants?**

- You can use the product once every 2 days for best results. In cases of severe infestation, the product can be applied once a day. For Mealybugs, carry out application twice a day until desired results. Carefully read the usage instructions on our packaging label or view this [video](#).

**Q. What are the side effects of using this product?**

- This product uses organic potassium salts to manage Sap Feeding Pests. These potassium salts have no adverse impact on the plants, humans or the environment. It's an all-natural formulation without any harmful effects.

**Q. Is this formulation safe for beneficial insects?**

- No, it won't harm beneficial insects unless the product is directly sprayed on them. We urge you to be mindful of the beneficial creatures who may become accidental targets while spraying.

**Q. Can this product cause harm to humans or pets?**

- No, this product is completely safe to use around humans or pets.

**Q. Can this product be used on indoor plants?**

- Yes, this product is ideal for managing Sap Feeding Pests in indoor plants and gardens as well as nurseries and other outdoor garden spaces. It's easy to use and can be applied with utmost ease.

**Q. What chemicals are used in this product?**

- This product contains the following ingredients...
  - Potassium salts of fatty acid
  - Other inert ingredients

**Q. Is this product approved for organic use?**

- Yes, the product is approved for organic use and is certified by IMO Control.

**Q. Can I become a reseller for this product?**

- Of course you can. Simply connect with us on [solutions@gaiacconnect.com](mailto:solutions@gaiacconnect.com) or call us on +91 73534 66611 and we will be happy to discuss a partnership.
